

Rene Dell, MA, LPC, NCC, CRC

Nearing the end of my counseling degree, I was not sure where the path would lead me. I landed a paid internship as a Vocational Rehabilitation Counselor without even knowing what the job entailed. I quickly fell in love with the work and the reward that would come from helping individuals reach their high level of independence through innovative vocational programs. This work truly became my passion and I continued to learn as much as I could about the field through continuing education options. Becoming a CRC was one of the best decisions I could have made for my career.
