

Catherina Rozario M.A., M.S., CRC

VR Area Supervisor
Division of Vocational Rehabilitation
FL Department of Education

I affirm that by becoming a Certified Rehabilitation Counselor I have met the standards which have been established and verified by a qualified organization. CRC has helped me to stay up to date so that my regular tasks are delivered with a degree of quality and competency. It provided unique opportunities in career advancement and in networking with key professionals. I believe I have made some long terms friends who are dedicated to the cause. For me it has not been a question why I should do the certification, rather the question has been, why should I not do it?
